

Springkell HOUSE

Setting standards of care and comfort for elderly people

Setting standards of care and comfort for elderly people

*A tranquil life, secure in the knowledge
that you will always be looked after*

Springkell house is an exclusive, privately owned and managed residential care home, offering a distinctive environment for the personal care and attention of the elderly and those with dementia care. Our commitment to you is our philosophy of care, which is:

"we understand your needs and will achieve our aim of providing the best quality of care and a fulfilling life to all our guests."

At Springkell we provide continuity of care in a warm and friendly atmosphere, where the homeliness ensures comfort and peace of mind for those living here and their relatives and friends who care about their well-being. Whether they are independent, frail or infirm, elderly people can be assured of the best possible quality of life.

Within easy reach of the main A3, connecting London with the South Coast, the location satisfies all travelling requirements. We are also uniquely placed close to the

delightful 'Devil's Punchbowl' well known for its pure air quality.

Springkell is designed to give residents a place to live where they can enjoy a quality of life similar to living in a family home.

Accommodation is provided in private single rooms, most with en-suite facilities. All have television and telephone points. Companion rooms and self-contained suites can be also provided.

Residents are encouraged to bring with them furniture, or personal items to make the room

feel like home. Specially adapted bathrooms and toilets are available to cater for all residents.

Because we intend Springkell House to be a 'home from home' we have developed an extensive menu based on traditional English cuisine. All the meals are freshly prepared on the premises using local produce where ever possible. Special dietary requirements and meal arrangements are always catered for. Hot or cold drinks are available during the day and night and visitors are welcome to stay for meals by prior arrangement.

We constantly strive to provide the best care possible and continually evaluate the way we do things.

We organise regular meetings where residents and their relatives can air their views or any concerns they have.

We also operate an open door policy on feedback and complaints and every resident will be issued with a formal complaints procedure when they join us.

*The homeliness
ensures comfort
and peace of mind
for everyone*
